

Abstract of the Disclosure

1 The player makes a wager for a first hand and a wager
2 for a second hand and the player then has displayed to him a
3 first hand. The player selects which cards to hold and the
4 unheld cards are discarded from the first hand and placed as
5 the starting cards in the second hand. Replacement cards are
6 displayed into the first hand to create a final first hand.
7 Additional cards are displayed into the second hand to create
8 a final second hand. The poker hand ranking of each hand is
9 determined and the player receives a payout for any winning
10 hand combination that is achieved in the final first hand and
11 in the final second hand. The amount of the payout is based
12 on a pay table and the amount wagered by the player.
